

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

May 8, 2001

LB 543

SENATOR CHAMBERS: Yes, I have on occasion done that.

SENATOR REDFIELD: Have you ever pointed out the excellence of your critical thinking skills?

SENATOR CHAMBERS: On occasion, probably I've done that also.

SENATOR REDFIELD: Have you even occasionally boasted of your language skills?

SENATOR CHAMBERS: Often.

SENATOR REDFIELD: Would you say that Nebraska has benefitted from all of those skills?

SENATOR CHAMBERS: If I look at the impact that has been created by them, I'd have to say, without being immodest, no.

SENATOR REDFIELD: (Laugh) Well, Senator, just last week I believe it was that you demonstrated for all of us that if we were going to hire a biology teacher, that we probably would be better served in the state of Nebraska by hiring Senator Chambers than Senator Erdman. And I want to ask you one final question.

SENATOR CHAMBERS: Yes.

SENATOR REDFIELD: Did you attend a private institution on the list that receive these college scholarships?

SENATOR CHAMBERS: Yes, I did.

SENATOR REDFIELD: Senator Chambers, I am sold. I am totally sold on this bill, because you demonstrate every time you stand up and speak the excellence of the skills that they teach. Senator Wickersham today has also demonstrated those skills. I am going to continue to support the bill. I'm not going to support the amendment. Thank you.

PRESIDENT MAURSTAD: Senator Chambers, you're recognized to close.
